

help is just a phone call away

Supported Employment Services

Supported Employment helps those who live with mental illness locate, acquire and keep full or part-time jobs in their community. We provide a wide variety of individualized supports and career planning – an excellent match for individuals who have a strong desire and commitment to work.

Supported Employment mutually assists those with a persistent mental illness find and keep employment that best fits their needs. Supported Employment is not a job placement agency. Instead, Supported Employment encourages active participation throughout the career exploration and job search process. Jobs are developed with the individual's needs, goals and employment preferences in mind.

Program Goals: Assist the participant to actively develop effective employability skills, provide assistance in finding the right job and help to maintain employment in the most satisfying environment.
